An extremely passionate collaborator with 13 years experience in the industry. At the start of my career I received a 1st Class Hon degree from the University of Westminster in film & photography, & won a Broadcast Young Talent Award for Cinematography. Since then my experience in drama & film has allowed me to establish a high-end documentary career with a distinct cinematic quality. At the same time I am forming a solid reputation in commercial/brand & Promo work. This year brings the potential of my first feature. I have a strong passion for what I do & am always looking for new collaborators & ways of pushing the boundaries.
