dianabondsmith@btinternet.com

I've been involved in location sound for over 10 years and enjoy the challenge and the variety each job brings, from being completely responsible for recorded sound on most projects to being part of a large sound team on such shows as Britain's Got Talent and X Factor. I thrive on the 'stress' of a live show and can keep my head when things change/go wrong at the last minute and I relish the opportunity of producing first rate sound for every job I'm involved with.
