Owner Operator F5 / F800 / C300 / PMW 500 / & Bespoke VW 2013 Crew vehicle

US I-Visa

I am an experienced and versatile Lighting Cameraman having worked freelance in the industry for 14 years now. My work has taken me around the world to many countries and environments on a variety of programme genres for long periods at a time. I am both happy to work as a single PSC unit but have also enjoyed working as DoP on many multi crew/camera productions both in the UK & USA.

My experience covers factual/documentary / observational, current affairs, entertainment/lifestyle, travelogue and sport. I also have extensive experience shooting in highly sensitive and harrowing situations.

Technical Experience

Sony F55/F5	Arri Amira	Sony PDW F800	Canon C300

I feel that I bring a proven, creative and diverse experience base, coupled with a genuine passion and keenness that will benefit and add to any production. My career has taken me to six of the seven continents, so naturally I love to travel.

In my spare time, I am a keen runner, swimmer and cyclist having competed in over 150 triathlons and 5 marathons to date. I am also a keen skier and scuba diver.
