

Colin Weller

Camera Operator/Assistant

About me

I've worked in the industry for over 18 years, having started at a facilities house which gave me a great grounding on the equipment and protocol. After going freelance in 2004, I've since worked on a huge variety of projects taking me to such locations as the top of the BT Tower to the Beckham's House to Wembley Arena. Throughout my filming career, I've always worked well within the team, overcoming whatever challenges are sent my way. I've never had that 'Monday morning feeling'.

Over the years, I have worked with a variety of camera formats and equipment, ranging from multi-camera hothead systems and OB operating to covert filming and underwater housings.
