Resume':

I have been resident in the UK since 1990, and have been practising location recording since 1993. I have a wealth of experience in all industry formats, analogue, digital, high definition, drive-based systems, 16mm and 35mm. I have recently gained Green Card status in the USA, and am part resident in Florida.

I do regular work in corporate film and video, dramas, broadcast documentary and actuality, factual light entertainment, multi-camera and commercials. Several of these projects have won and been nominated for production awards and exposure in prestigious forums like the Craft BAFTA's and Sundance Film Festival. These are noted in the list of credits detailed below.

I have had extensive international experience in hazardous location work, ie high speed land vehicles, aircraft, ships, heavy construction machinery, outdoor work in jungle, desert, mountains and sea.

Basic sound package (Extra kit can be added at fair rates):
