Date of Birth: 3/12/1986

Full Clean Driver's License and Car Owner

BNUC-S & CAA permission to fly UAV

 British Citizen/Valid Passport

 Brazilian Citizen/Valid Passport

Speaks Portuguese

I Spent 3 years working at Electra Television & Film where I learnt large amounts of invaluable knowledge as an in-house assistant. The experience I gained was the maintenance, rigging and application of a wide variety of camera formats, lighting and grip equipment and how to use these pieces of equipment across all platforms such as Documentaries, Commercials, TV Drama, Corporate, Film and many more. I started using drones for filming in 2014 and it has gone from strength to strength. I can now offer the Inspire 1 Raw which give you 4K raw footage with the image quality coming from the inbuilt X5 camera which has a Sony Exmor sensor.

I Began working with Chump Production Limited on 27/6/16 on a freelance basis as a Camera Assistant.

Equipment:

Alexa, Amira, Mini, 416/416 Plus

One, MX, Epic, Dragon, Weapon
