Profile.....

I have been a location sound recordist for over 20 years, working on every kind of shoot imaginable. From simple interview setups to sound supervising multi camera multi radio mic productions. Working for some of the biggest broadcasters and productions companies in the world.

I have a passion for perfect sound, even under the most challenging of conditions, and I have gained a strong background in documentary, factual, drama and entertainment program making. I've been fortunate to work in many different locations around the globe, from the scorching heat of the desert to the frozen ice flows of Patagonia.

Recent Credits Include.....

SOUND RECORDIST - JULIE WALTERS - COSTAL RAILWAY JOURNEYS - ALASKA FILMS - CH4 - MAY 2017
