Diary Service - Linkline Crew +44 (0)20 8426 2200

Experienced at assisting and operating a large range of ENG style and large sensor cameras. I am also able to manage data transfer workflows with a range of capture formats, easing the transition between acquisition and post production.

Having worked around the globe, from Iceland to Indonesia, as well as filming in some of the world's most dangerous environments, A qualified open water diver and top rope climber, I consider myself a very versatile crew member, with both technical and creative know how.
