daniel@zayahmedia.co.uk

Full British License

I worked at Hotcam Professional Broadcast Equipment hire and rentals for 4 years, starting out as a kitroom technician and I left as one of the in house camera operators. During my time at Hotcam I gained an in depth technical knowledge of the different equipment available to hire to clients; testing & prepping this kit for clients allowed me to gain good working knowledge of different types of camera kit. I am able to handle carnets for large amounts of equipment can also confidently deal with customs when it comes to travelling large amounts of kit around the world.
