

Dave Williams Sound Recordist/Mixer

Full Hostile Environments Training for over 10 Years.

Ivsa . Till 2021

Full Inoculation for World Wide Travel.

Education. London Film School 1989-91

Grade. Film/Location Sound Mixing.

Member of A.M.P.S [Asociation of Motion Picture Sound]

I have Worked in over 100 countries, in every Enviroment the Planet has to offer, I was originally trained in film Sound. like most other Recordist/mixers, I have moved with technology, From one presenter and one contributor, To Multiple presenters and multiple contributors all out of one bag, Just like most location Recordists we supervise and execute large produitiions. PSC recordists are probably the most Versatile out of all the Sound Departments, as we have to deal with situations as they happen with next to no time to weigh up the possible options, All done with a bag of electronics hanging around our necks and a pole over Head. Fitness along with good Communications is key to this.

Please Get in Touch to discuss any shoot you have in Mind I love to be in it from the start I have a great deal of Experience I can bring to the Production.
