About Me

I love my role as a sound recordist! I enjoy being solely responsible for sound on the smaller jobs (out in the 'field') and equally I love being part of a substantial team on massive shows such as Britain's Got Talent and XFactor (theatre and studio based). Every job is different and each comes with its own challenges. I take care and pride in delivering the best sound and service on each and every job.

I own all kit required for a successful 'on the run' shoot. Ideally suited for interviews, docos and fly on the wall projects. Please feel free to call for advice or to discuss any sound requirements.

All charges are agreed before invoicing and I operate in a totally transparent way.

PSC Audio kit
