London | Manchester | Full clean UK Driver's Licence

Experience

During my four years at HotCam Broadcast Equipment and Crew Rental, I developed my skills and built up a large amount of technical knowledge. I started out in the kitroom but was then quickly promoted within the company. As Technical Coordinator I was tasked with overseeing the completion of larger jobs as well as building video systems for clients. I have been in charge of international carnets and am very confident in dealing with customs and the transport of large amounts of equipment through airports.

Equipment

Arri Alexa Mini, Arri Amira
