I Spent 3 years working at Electra Television & Film where I learnt large amounts of invaluable knowledge as an in-house assistant. The experience I gained was the maintenance, rigging and application of a wide variety of camera formats, lighting and grip equipment and how to use these pieces of equipment across all platforms such as Documentaries, Commercials, TV Drama, Corporate, Film and many more. I started using drones for filming in 2014 and it has gone from strength to strength. I can now offer the Inspire 2 package with either the X5 or X7 Camera.

Equipment:

Alexa, Amira, 416/416 Plus

Epic, Dragon, Weapon
