Matt Wardtv

Prior to going freelance in 2017 I worked for Shift-4 Ltd as a Kitroom Technician and more latterly a Technical Manager. During my time there I gained extensive knowledge in building and testing camera equipment both within the kitroom and out on location. Since going freelance I've worked on a wide range of commercials, TV shows and branded content both in the UK and throughout mainland Europe, central and southeast Asia.

Camera Operator / 2nd Camera
