| Ben Joiner DOP | Iain May DOP | Roger Laxon DOP |

I have been an assistant since 2012. I started working in house at Electra Film and TV, a London based camera rental company. I have now been freelance since early 2015 and have a wide range of experience in different shooting styles and am happy in many environments.

In the last 6 years I have shot and driven in over 30 countries, assisted, operated, focused pulled on location and car to car tracking rigs such as Russian arms, and been responsible for mini cams. I am also competent at safely rigging various vehicles for tracking and effects shots.

Current Kit:

Go Pro 5

A7III

Mac book Pro
