

*Jon Guy*  
**LIGHTING CAMERAMAN**

I love the varied nature of my job and the many interesting people whose paths I cross as a result of it. I'm equally happy lighting an interview for a corporate film, or following actuality for a tv show; being responsible overall for a team of camera operators or just being an operator myself. I also have experience of hot head minicam operating and am confident working with radio mics for those jobs where the budget simply won't stretch to a soundie. I own a 4k shooting kit, including lights and comms, and own enough media that production can usually take rushes away after a shoot and return the cards once the footage is safely in the edit, should they need to. To take a look at my showreel, please visit [www.thecameraguylimited.co.uk](http://www.thecameraguylimited.co.uk)
