Interests

I’m a trumpet player and my main outfit is Brasstermind, a ten piece New Orleans brass band playing covers. We’re based in Brixton, South London. I also have an interest in stills photography.

“A sound recordist has to manage many factors while on location, including working with presenters, production and other staff. Gabriel is popular with all of these people, putting presenters and talent at ease and relating well with all clients and directors. He treats every job he does with the same level of professionalism, be it a feature film or a short corporate interview.”
