Mobile: 07958355077

I've been working in the sound industry for 12 years covering a wide range of environments from location sound recording to live music mixing, satellite broadcasting and post production sound editing.

I've started my way in the U.K. by working for the Cruet Company (a London based facilities house) since 2004, working my way up to the position of sound supervisor. Through my work in the Cruet Company I've gained experience in many types of productions (documentary, multi camera shoots, live events, drama, studio set up, multi track recording...) as well as getting in depth knowledge of broadcast cameras and knowledge of equipment repair and on set solutions.

I speak English, Hebrew, Spanish and French.

I have a clean driving license.
