

Ben Livingstone

sound

I've been working on projects from complex multi camera rigs with a dozen or more channels of audio, interpreters and multi room monitoring to simple high profile interviews embedded behind the scenes of the year's biggest films. My work has ranged from the detail of advertising to the hard graft of entertainment. I particularly enjoy sensitive documentaries demanding people skills as much as technical ability.

Countries worked in: Afghanistan, Bahrain, Belize, Croatia, Democratic Republic of Congo, Denmark, Ethiopia, France, Germany, Honduras, Iraq, Italy, Japan, Jordan, Luxembourg, Morocco, Namibia, New Zealand, Oman, Portugal, Qatar, Spain, Sweden, Switzerland, U.A.E., Uganda, USA.
