CAA PfCO Holder

British and Irish Passport Holder

Diary Service – Linkline Crew - 0208462200

I am experienced in assisting and at operating a large range of digital cinema and ENG-style cameras. I'm also able to manage data transfer workflows with a range of capture formats, easing the transition between acquisition and post-production. I have worked around the globe, across all 7 continents, as well as filming in some of the world's most dangerous environments. With 8 years Assistant experience, a confident camera and drone operator I consider myself a very versatile crew member, with both technical and creative know-how. Especially interested in adventure/expedition filmmaking, I have experience filming expeditions in jungles, through deserts, over glaciers and at high altitude. These jobs have given me valuable expertise in running a camera department in the most testing environments.
