I have a strong background in Documentaries/Factual but I'm also comfortable working in Commercial, Features and Promos. My experience covers a range of genres including Food, History, Travel, Live Events and Specialist Factual.

I have worked around the globe, across all 7 continents, as well as filming in some of the world's most dangerous environments.

With 10 years' experience as a Camera Assistant informing my abilities as a confident camera and drone operator,

I consider myself a versatile crew member, with both technical and creative know-how.

I'm especially interested in adventure/expedition filmmaking; I have experience filming expeditions in jungles, through deserts, over glaciers, at high altitude and at sea. These jobs have given me invaluable expertise filming in the most testing environments.
