

# TOMMY HENMAN

CAMERA ASSISTANT/ DATA  
WRANGLER

*A highly skilled and versatile camera assistant, I learnt the trade over the last 4 years as an in house camera technician and assistant for one of London's leading rental houses. Having worked in a kit house I've gained a great working knowledge of most current cameras, from the Alexa mini to to GoPro. Alongside cameras I've also got a great working knowledge of Gimbals, sliders, grip and lighting. I love to keep up to date with current tech, and am as much at home in a studio as a single camera shoot.*
