Curriculum Vitae

I have enjoyed a terrifically varied career in film and television as a Sound Mixer over a period of more than twenty years. I have been very lucky and worked in every part of the industry right from Corporate TV shot on i-phones all the way up to feature films shot on Arri cameras. I have worked in many countries globally and in all types of environments. Harsh deserts, countries at war, on oceans in boats, business HQ's and in the best studios our country offers. I enjoy motorsport, boats, all kinds of live music and the arts. I am versatile, creative and willing to work. I love my job.
