SUMMARY

Began working in the industry in 2001 as a camera trainee on the 2nd series of Holby City. Continued to acquire knowledge and skills through a variety of projects and genres such as: comedy, drama, documentary, studio, live, entertainment, commercial and branded content.

Experience working all around the world on many different projects with an array of challenges. These involved many styles of camera techniques and lighting, depending on the subject matter.

Always approach every situation, both on and off set, with a calm and open-minded demeanour. Enjoy being part of a team, where creating new and exciting content is the focus.
