

NIGEL DUPONT

DIRECTOR OF PHOTOGRAPHY

m. 07973 136715
e. nigeldupont@me.com

w. nigeldupont.com
d. mail@linklinecrew.com

With over three decades of experience working within the industry, I specialise in delivering compelling and dynamic visuals designed to enhance any production. Thriving in challenging environments, I have successfully undertaken projects with many major networks and independent production companies across various locations around the world.

I own an FX9 camera and a FX6 camera and have extensive experience in all top end cameras and formats prevalent in the film and television industry.

I am a certified HSE commercial scuba diver, equipped with my own underwater camera housing equipment for work underwater.

Holding a Part 107 license and an A2 license, I am authorised to operate drones in both the UK and the USA.

With a current BOSIET certification, I am also qualified to work offshore and I have extensive experience working on oil and gas platforms around the world.

I hold a current American "I" visa and "O2" visa which allows me to work in the United States.

I pride myself on my passion and ability for collaborative storytelling and I am dedicated to delivering a quality product.

Testimonials

Nigel is an awesome DP who I've worked with on several productions over many years incredibly nice mannered, motivated and talented. A joy to work with. - Justin Kelly - Executive Producer

I can't thank you enough for the care, skill and sheer energy you put into the programme. It was a real privilege to have you on the team. - Aidan Hansell - Series Producer

Even though you endured an extremely demanding schedule, almost constant driving rain, painfully early starts and travelling over 1000 miles, throughout it all you remained hardworking and dedicated - Bill Hobbins - Exec Producer
