I am a freelance Sound Recordist who is calm and easy going.

Having worked in this industry for 20 years I have had the chance to gain experience with many types of filming formats.

I own a comprehensive sound kit to cover most eventualities and would be more than happy to answer any questions you may have.

Please feel free to call me if you'd like advice or just want to discuss sound requirements for your future ventures.

Below are just some of the projects I have worked on.
