CAA approved Drone Pilot (UK/EU)

EXPERIENCED - I understand the overall editorial picture. I'm here to help you make a programme and not 'just' record sound. I work quickly and discretely, establishing trust with contributors/actors.

TECHNICAL - 28yrs, post background, can leads teams on complex technical shoots, I understand all the ones and zeros and can sort workflow before we arrive on site.

WELL TRAVELLED - Filmed in over 50 countries, used to carnets/customs, crossing borders, hostile/post-conflict environments. I'm calm and situationally aware. I can work covertly and can bridge cultural/language barriers quickly.

DRONE - I can provide cost effective, BASIC drone footage to compliment my sound recording skills. UK Operational Authorisation from CAA and public liability insurance in place. EU flying permissions in place.
