

# TOM GRANICA

Camera Operator

## EXPERIENCE

I am proficient across all major camera systems including ARRI, Sony (FX9/FX6/FX3/F55), Venice, Burano, Canon C-Series, DJI 4D, and RED platforms, and I bring practical experience in lighting, grip and sound integration. I regularly rig minicams, specialist fixtures and remote systems, and have extensive experience operating hot heads and time-lapse units in dynamic environments. My recent work includes more senior operational roles such as Camera Manager on Portrait/Landscape Artist of the Year for Sky and Camera Guarantee across multiple Premiership Rugby broadcasts, reflecting a trusted technical capability and an ability to lead and support multi-camera teams, as well as as work on smaller scale, single camera productions. I additionally offer Aerial Videography.

## PROFILE

Over more than seven years working within a major broadcast facilities environment, I've developed a strong technical foundation and a confident, solutions-driven approach to camera work. Daily exposure to a wide range of equipment, combined with hands-on involvement across studio and location setups, has strengthened my ability to troubleshoot, adapt, and operate efficiently under pressure. Progressing from data wrangling and assisting into full operating across live music, reality, corporate, documentary and factual programming, I've built a broad understanding of production workflows and established a reliable, calm presence on set
