ABOUT ME:

Jon has over 15 years experience as an offline editor for TV with extensive experience in Avid MC, Adobe Premiere and After Effects.

Starting with Promotional and TV Commercials and now editing TV Commercials, factual TV and Music Documentary programming. Cutting a large and varied selection of popular formats and subject matters across all major UK TV channels.

I am a strong storyteller and have edit credits for various projects for Middlechild, Lonesome Pines 'Steve Lukather Documentary' 1x 60mins Documentary and most recently 'Carly Paoli and Friends' for Sky Arts.

I am quick, creative and always keen to take the lead on a project whilst equally at home working in a larger team.

- 15 years + experience in the storytelling and broadcast industry
